

The Knee Hip and Shoulder Center

COVID-19 Protocol

We are looking forward to meeting you at your upcoming appointment. Our office is located directly inside the Portsmouth Regional Hospital.

Due to the current COVID-19 health crisis, our office follows the Portsmouth Hospital guidelines that mandate unless a person has some underlying health conditions ie: hearing impairment, or cognitive concerns (dementia) they will not be able to have additional people accompany them to the appointment. When scheduled for a surgery with our surgeons there is a preoperative appointment in our office. This is the only time ONE person may accompany you, if the above does not apply.

The only appointment a family member may attend is the preoperative appointment in our office (the one before the surgery).

At the hospital entrance, you will be asked the Covid-19 screening questions, have your temperature taken and be given a clean mask.

If you or (a support) person have been travelling outside of the New England area it is mandatory that a two (2) week quarantine be honored.

These guidelines and practices are to protect the safety of patients, employees of the Portsmouth Hospital and the staff of our office.

We appreciate your cooperation during these difficult times.
